

**Optimum power supply system and Optimum charging system**

The XGT range of tools and batteries come with a built-in program, providing digital communication between the battery and tool. Allowing not only for the battery to talk with tool but also the tool to talk to the battery. Battery technology and motor engineering that work together for optimum performance.

**Optimum charging system**

Auto maintenance system with two cooling fans for providing more optimum fast charging

Tool ↔ Battery ↔ Battery Charger  
Digital communication

**Built Tough**

High durability specifications specially designed for 40Vmax Li-Ion batteries

**Accessories**

- Standard equipment
- Grip assembly set**

Part No. 191E41-8

**Bit holder**

Part No. 452947-8

**Charging Time Reference**

# High speed and Compact

All metal gear construction

**BL MOTOR** High power Brushless motor

Wood  $\varnothing$ 38 mm

Steel  $\varnothing$ 13 mm

Spiral step drill  $\varnothing$ 22 mm

Tap drill M10

## Increased work speed

Rotation speed becomes faster providing increased work speed especially in a light duty application like drilling with a 7/8" ship auger bit.

## Increased maneuverability

thanks to compact design

DF002G

**164 mm**

[ HP002G / 174mm ]
