

# Data sheet

|                                 |                                     |
|---------------------------------|-------------------------------------|
| Shaft inner diameter            | Ø8mm                                |
| Max. response frequency         | 300kHz                              |
| Max. allowable revolution       | 5000rpm                             |
| Starting torque                 | Max. 50gf.cm(max. 0.0049N.m)        |
| Resolution                      | 1024P/R                             |
| Output phase                    | A, B, Z                             |
| Control output                  | Voltage                             |
| Power supply                    | 5VDC $\pm$ 5%(ripple P-P: max. 5%)  |
| Connection type                 | Radial cable type                   |
| Protection structure            | IP50                                |
| Environment_Ambient temperature | -10 to 70°C, storage: -25 to 85°C   |
| Environment_Ambient humidity    | 35 to 85% RH, storage: 35 to 90% RH |
| Accessories                     | Bracket                             |
| Weight                          | Approx. 120g                        |

※Make sure that max. response revolution should be lower than or equal to max. allowable revolution when selecting the resolution.

[Max. response revolution (rpm) = Max. response frequency/Resolution × 60sec]

※The weight includes packaging. The weight in parenthesis is for unit only.

※Environment resistance is rated at no freezing or condensation.
