

Test Probe Pigtail SMA Female to Stripped Lead Cable .047 Coax and RoHS Compliant

Fairview's semi-rigid test probes are convenient ready-to-use probes designed for use in testing microwave circuits. These probes are constructed of high quality semi-rigid coax and SMA Female connectors. The assemblies come in multiple cable diameters to help when attaching two very fine traces or into tight spaces. There are two versions including straight-cut probe ends for those that would like to customize the dimensions of the center conductor and dielectric dimensions as well as pre-stripped probe ends that are ready for immediate use. Each assembly has been RF tested to ensure VSWR specifications of the assembly are met prior to trimming. Each assembly comes in special packaging to protect the small diameter coax and pre-trimmed probe ends.

Configuration:

- SMA Female
- Stripped Lead
- FM-SR047CUTN

Features:

- 100% RF Tested Prior to Final Trim
- 1.35:1 Max VSWR to 6 GHz
- 100% High Pot Tested to 500V
- .047 Diameter Semi-Rigid Coax
- Individually Packed in Protective Tube

Applications:

- RF test lead for measurements up to 6GHz
- Testing of individual function or subsection of an RF circuit board
- Inject signals for test and verification
