

Complex vibration temperature and humidity chambers ETSP-VTH series

### Product Intro

ETSP-VTH series are temperature and humidity test chambers in combination with vibration. Enable to simulate dynamic process as well as optimum integration of various vibration systems.

Technical Features

Temperature range	-70 ℃ ~ 150 ℃
Temperature stability	Less than ± 0.2 ℃
Temperature uniformity	Less than ± 2.0 ℃
Heat-up rate	More than 1~5 ℃/min
Cool own rate	More than 1~5 ℃/min
Humidity range	20 ~ 98% RH
Humidity uniformity	Less than ± 3% RH
