Magnetic Stirrer PCE-MSR 50-FR

Mini Magnetic Stirrer
Mini magnetic stirrer to 1000 ml / 88 mm platform / Mains operation /
Adjustable stirring speed

The mini magnetic stirrer PCE-MSR 50 is suitable for applications in small laboratories. The mini magnetic stirrer can safely mix stirring quantities of 100 ... 1000 ml. Vessels with a diameter of up to 88 mm can be placed on the stirring surface of the mini magnetic stirrer PCE-MSR 50.

So the magnetic stirrer can be used for all common beakers. The magnetic stirrer is supplied with an external 5 V mains adapter. Due to its small size and weight, the mini magnetic stirrer can also be used in mobile field surveys.

- Magnetic stirrer up to 1000 ml
- Small dimensions
- Mains operation
- Adjustable speed to 1600 rpm
- Stirring surface 88 mm
- For field and laboratory tests
