

## Description

### Heating Oil Bath Heating Oil Bath With stirrer

#### Summary:

Provided to colleges, industrial and mining enterprises and scientific research departments for precise constant temperature and auxiliary heating.

#### Features:

- 1) Interior of the bath is made of stainless steel with a beautiful and novel appearance.
- 2) Digits display, Microprocessor PID control with timing function.
- 3) Audible and visible tracking alarm indicates over temperature, which provides samples reliable protection.
- 4) DU-30G is with magnetic stirrer function, it uses servo motor controller with high force.

Option: intelligent programmable LCD temperature controller

#### Specification:

Model	Electrical	Input Power	Temperature Range	Temperature Stability	Tracking Arm	Chamber Capacity	Interior Dimension (mm)W*D*H
DU-20	AC 220V (AC 110V option)	1000W	RT+20~200°C	±0.5°C	±2°C	12L	250*250*200
DU-30		2000W				20L	400*250*200
DU-30G		2000W				20L	400*250*200
