

Force Gauge for businesses / weighing range up to max. 15.000 kg / with remote control

Force Gauge with a high weight range up to 15 t. The resolution of the Force Gauge is 10 kg. The housing of the Force Gauge has an IP 67 protection. The digit height is 40 mm and thanks to the display high contrast is easy to read. The remote control is included in the shipment. It can control the Force Gauge at a maximum distance of 8 m. Some features of the Force Gauge are the addition of several weights, controlled weights with limit value definition, percentage weighing, piece counting and indication of the maximum weight.

It is especially suitable for warehouses, retail, food and transport sectors, although of course it can be used in other fields. Because of its small size, it allows very efficient use in lifting systems or lifting devices such as cranes. The Force Gauge is sent with accumulator, charger and remote control (including battery).

- Display with red LEDs , 40 mm height
 - Protection IP 67, protection against water and dust
 - rechargeable battery with hermetic protection (aprox. life of 60 h in use)
 - Peak value
 - Addition function
 - weighing percentage
 - Piece counting function
- Remote control

Technical Specifications

	Maximum weight range [kg]	Minimum load weight [kg]	Reading capacity [kg]	Repeatability [kg]	Verification value [kg]
PCE-MCWHU15	15000	200	10	$\pm 0.03\%$ of weight range	10
Protection	IP 67 (protection against water and dust)				
Tare function	yes, in all the range				
Response time	<10 s				
Units of measurement	kg / lb				
Functions	Addition, percentage, piece counting function, pick value, freeze the value in display (HOLD)				
Display	Display with red LEDs, 40 mm high				
Enclosure	very robust construction of lacquered iron plate (galvanized)				
Power	rechargeable battery 6 V - 10 A / (prox. life of 60 h) / automatic switch off				
Time to recharge	aprox. 12 hours				
Auto shut-off	programmable of 1 to 255 minutes, or deactivated				
Remote control	Regulable for automatic tare or remote control of 4 keys				
Operating temperature	-10 ... +40 °C				
Weight	86 kg				

Delivery contents

1 x Force Gauge MCWHU15 , 1 x rechargeable battery, 1 x charger, 1 x remote control (including batteries), 1 x carrying case and 1 x manual of instructions
