## **Test stand LTS-20**

Manual test stand for force gauges. The crank-operated test stand LTS-20 can be used in combination with different PCE force gauges. With the test stand LTS-20, you can perform tensile and compressive force measurements up to 1000 N respectively 100 kg. By using a test stand, you can always be sure to get consistent and repeatable results. The test stand LTS-20 is operated manually by using the crank handle on top.

## **Specifications**

Max. travelling distance: 345 mm

> Total length: 530 mm (without crank handle)

Crank handle diameter: 120 mm
 Leadscrew diameter: 15 mm
 Leadscrew thread pitch: 2 mm
 Base dimensions: 250 x 230 mm

Base plate: 145 x 100 mm

Weight: 7 kgMax. force: 1.000 N

## Please notice:

Depending on your force gauge, a special mounting plate may be necessary to attach the gauge to the test stand. Please contact our customer support for more information.

## **Optional accessories:**

Wedge grip: Self-fastening wedge grip with lever for fast opening of the clamp. Ideal for material thicknesses up to 5 mm.

Wedge grip and force gauge not included in the package
