

QC-915 Impact Metal Specimen Angle Cutting Device

Standard

Description

This tester is designed for making V and U notch of metal impact specimen, use easy operation way, create specimen notch in one time, precision cutter edge let notch making more accurate.

Appearance

Specification

Notch type V	Conform to ISO148 standard (Standard)
Notch type U(5mm)	Conform to ISO148 standard (Optional)
Process specimen size	10×10×55mm
Accessory	Chip container
Dimension	39×39×117cm
Weight(around)	60 kg

Feature

This tester can select different cutters to meet ISO 148 or various metal impact specimen standards. This tester is manual type with safety lock to prevent abnormal operating danger, cutting orbit use precise slide to let cutting accurate is higher.

* Cometech reserves ultimate modification right of product specification.
