Thermometer PCE-RCM 8

Indoor / Battery-powered multi-function particle counter / LC display / Mass concentration PM 1,0, PM 2,5, PM 10 / Formaldehyde / Alarm function / Temperature measurement / Foot stand / Switchable display

The multi-function particle counter PCE-RCM 8 performs many measuring tasks. For example, the multi-function particle counter can measure mass concentration, formaldehyde and TVOC. This multi-function particle counter is specially designed for indoor measurement. The 320 x 240 pixel display shows you directly the current measured values.

Due to its ease of use and the large display, this multi-function particle counter is optimally suited for measuring in offices, schools and living spaces. With the help of the data logger function, you can view the last parameters at any time. Thanks to the built-in lithium ion battery, you can position the multi-function particle counter freely at your workplace.
