

YUYANG INDUSTRIAL CO., LIMITED

China Manufacturer of Fire Testing Equipment

Wire Spark Testing Equipment Cable Testing Equipment For Rubber / Plastic Wire

- **Product Details:**

- Place of Origin: **China**
- Brand Name: **YUYANG**
- Certification: **GB / T3048.9 BS5099-874 AMD3110.4025**
- Model Number: **YY604**

- **Payment & Shipping Terms:**

- Minimum Order Quantity: **1 set**
- Price: **Negotiation**
- Packaging Details: **Plywood Box**
- Delivery Time: **5 work days**
- Payment Terms: **T/T L/C Western Union**
- Supply Ability: **8 sets per month**
- Share to :

BS5099-874 Cable and Wire Spark Testing Equipment, 0~30 KV Wire Test Machine

Description:

Cable and Wire Spark Testing Equipment is a synchronous weakness test instrument.let a setting voltage values loaded on insulation cyclically and the conductor

connect the ground. So there's a voltage difference between conductor and insulation to test the quality of insulation layer.

Apply to ZBK13002-88, JB/T4728.10.93 Cable and Wire Spark Tester GB/T26873-2011 standard.

Standard:

In line with the national standard GB / T3048.9-2007 and BS5099-874, AMD3110.4025 "wire and cable insulation core DC spark test" all the requirements.

Feature:

Suitable for rubber and plastic wire and cable insulation layer quality frequency spark test, test wire coating or insulator, the conductor for detecting the pinhole and Popi high precision and automatic alarm and counting.

Spark test machine for the production of the finished product and seized the entire test is to ensure that wire and cable insulation important quality test equipment.

Technical parameters:

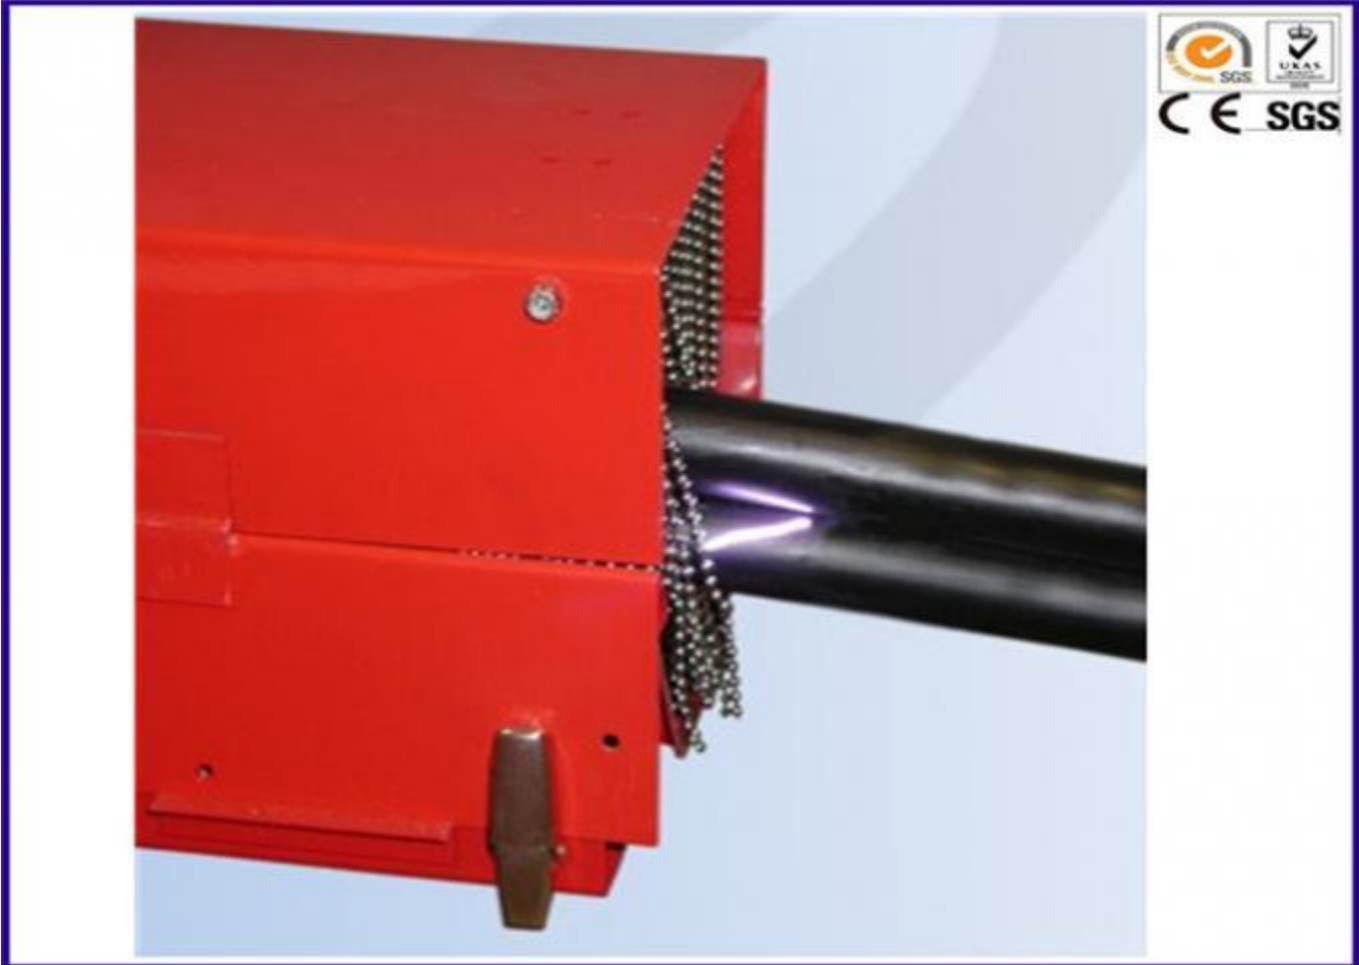

Input voltage: AC220V 50HZ allowed to vary $\pm 10\%$

Output voltage: 0 ~ 15KV, 0 ~ 25kv, 0 ~ 30kv adjustable accuracy of $\pm 5\%$

Electrode beads: 600mm

Sensitivity <600uA / 2MA

Test voltage indication: Analog

CE U.K.A.S. SGS
