

**Videoscope PCE-VE 300-H Without cable / handset
only**

Videoscope PCE-VE 3xxN Series
Videoscopes for industry, craft, and development / with 8 GB memory card /
Video recording and image recording / Various cable types selectable

The videoscope PCE-VE 300-H is the absolute optimum for experts and development engineers. Choose between many different borescope cables for the videoscope. This videoscope not only gives you an optical insight into the inner workings of machines and systems without first disassembling them, it also allows images and video sequences of the components to be inspected to be stored directly in the device. Never before has optical analysis and documentation with a videoscope been so easy and cheap.

- Different cable lengths with different properties selectable
- Storage of pictures and videos
- 8 GB memory card incl.
- LED lighting
- Robust carrying case incl.
- Additional camera cables as accessories optionally available
