

Form 2 Resin Tank LT

This tank was designed for printing in a high volume production environment and offers a longer tank lifetime for some Formlabs resins.

Resin Tank LT is compatible with the following materials:

- **Required:** Grey Pro, Rigid, Elastic. New tank recommended for every 1-2 L of resin.
- **Recommended:** Castable Wax, Denture Base, Denture Teeth.
- **Compatible:** Standard Resins, Dental Resins, Durable, Tough, High Temp, Flexible, Castable. Offers at least two times longer lifetime than the standard resin tank when printing with these resins.
- **Not compatible:** Ceramic.
