

Product Information

- Maximum peak voltage: 5,000V (high-voltage mode for all models) in CS-5000 Series
- Maximum peak current: 1,000A (CS-5300 high-current mode)
- The CS-5000 Series achieves 5,000V of max. peak voltage with the same physical size as the CS-3000 Series.
- Best suited for the measurement of a power devices that have 3.3kV and 4.5kV withstanding voltage

Models Ranges:

- CS-5400 5kv/1500A
- CS-5300 5kv/1000A
- CS-5200 5kv/400A
- CS-5100 5kv/15A
