

# STEPPER MOTOR WITH PLC TRAINING SYSTEM

Model Number :GOTT-PLC-STP

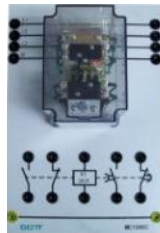

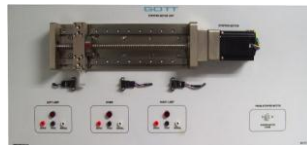

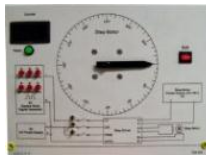

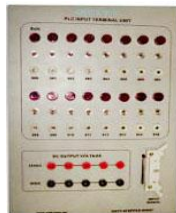

## DESCRIPTION

The GOTTE Stepper Motor System is an integrated system for in depth studies Stepper Motor theory and working principles. The system comes with an upright control panel. The stepper motor system is connected via flexible coupling. The control panel comprises of Stepper Motor Driver, Time Delay Contactor, Programmable Logic Controller Unit, PLC Input Terminal Unit, I/O Unit, PLC Output Terminal Unit, and all wiring connections brought out to 4mm terminals. Connecting leads with banana plugs facilitate quick and easy connections between the Stepper Motor System and other control. The Step Motor Unit stands independently with its own power input to simulate the frequency of the stepper motor. The operational and experimental manuals are provided in English.

## FEATURES

- Works with Existing Equipment
- Equipped with manual switches to simulate all inputs and outputs
- Accommodates other PLC Brands too
- Actual Stepper motor control
- Integration between stepper motor driver and programmable logic controller unit
- Actual stepper motor unit with sensors for further study of motion control
- Easy connecting ability to existing motor sensors, valves and switches through standard banana jacks
- Can be combined with other control devices included industrial sensors and other mechatronics training equipment.

## PRODUCT MODULES

**STEPPER MOTOR WITH PLC TRAINING SYSTEM**

Model Number :GOTT-PLC-STP

SAFETY CONNECTING LEAD	CODE 237-001	VERTICAL FRAME	CODE 380-000	EXPERIMENT MANUAL	CODE 478-012
4mm connecting lead		High level : DIN standard A4 with two shelves Material: Aluminium Side Frame: T shape Size: 2-Layer 1450mm Length			
					

**EXPERIMENT TOPICS :**

- Fundamentals of Logic
- Programming Language
- Developing Ladder Logic Programs
- Programming timers
- Structure of Control Systems
- Sequencer Programs
- Programming Counters
- Master Control and Zone Control Instructions
- Jump Instructions and Sub-routines
- Combined Counter and Timer Functions

**Manuals:**

- (1) All manuals are written in English
- (2) Model Answer
- (3) Teaching Manuals

**General Terms:**

- (1) Accessories will be provided where applicable.
- (2) Manuals & Training will be provided where applicable.
- (3) Designs & Specification are subject to change without notice.
- (4) We reserve the right to discontinue the manufacturing of any product.

**Warranty :**

2 Years
