

Audio Signaling and Light Emitting Type Voltage Detector

Model HST-30V~500V

This product is for AC current, and it indicates the presence of charge in circuits with an electronic buzzer that is easy to hear and a high-luminance light emitting diode. It is **light-weight** and **easy to handle**.

MADE IN JAPAN

Rating and Specifications

Model	HST-30V	HST-70V	HST-170V	HST-250V	HST-500V
Working voltage range	6~42 kV AC	50~120 kV AC	100~200 kV AC	200~300 kV AC	300~550 kV AC
Indication	Sound	Intermittent sound 50dB or more (2m apart)			
	Light	Verifiable at 8,000Lx of brightness (Red LED)			
Frequency	50/60Hz				
Water proof	There should be no water seeping inside after applying precipitation of 3 mm/min to the detection part for 10 minutes.				
Operating temperature range	-10°C ~ +40°C				
Battery	LR44 (1.5V) × 2pcs.				
Accessory	Bag for housing
