PA SYSTEM TRAINING UNIT
Model Number : GOTT-PAST-515

DESCRIPTION

This Public Address System Training Kit has been created for learning PA System equipment installation in the residence, building or factory. There is a symbol or block diagram on each module. All connecting points are using sockets. These are designed to train student in domestic and commercial application of these systems. In the program the students will learn about the system components and their functions. They also learn how to arrange and connect up the system to function properly. All components are fixed to our panel mounted frame system. A three level panel frame is included for those components to be easily placed on the frame in various configurations and then interconnected to form a working system. With this method of training, students can learn the installation and function of PA System easier and faster.

PRODUCT MODULE

HORN SPEAKER	CODE 828-001	BI-DIRECTIONAL SPEAKER	CODE 828-002	CEILING SPEAKER	CODE 828-003
