

## Effectively Four Ionizing Air Guns Static Eliminator Generator Power

### Features

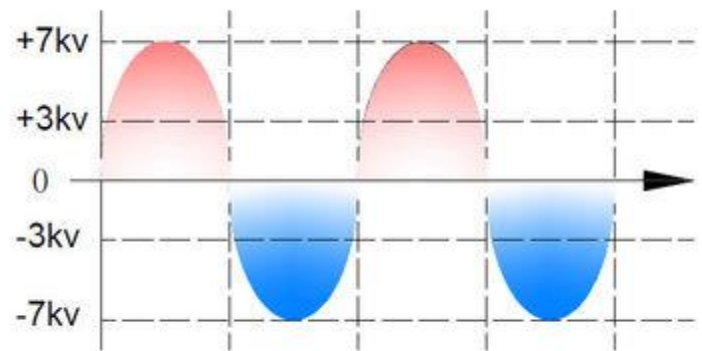

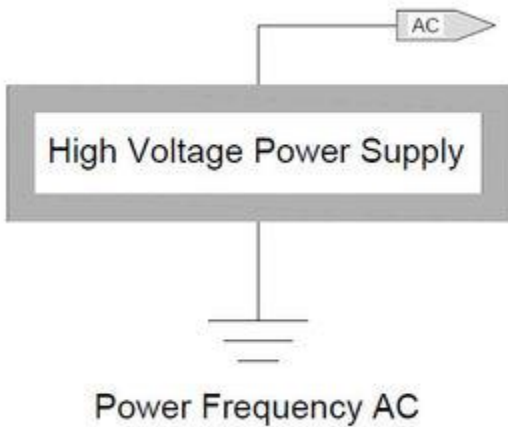

- 1, Over voltage and short circuit protection
- 2, Excellent performance, safe and reliable
- 3, Plug-in interfaces, convenient to operate and install
- 4, Working under high voltage and micro current

Ion generators and ion rods can produce positive and negative ion group, effectively neutralize the positive and negative charge within the distance of 30mm~300mm, and then completely eliminate static electricity.

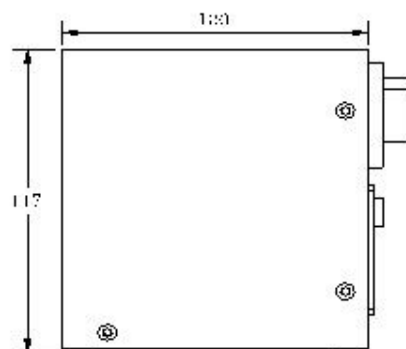

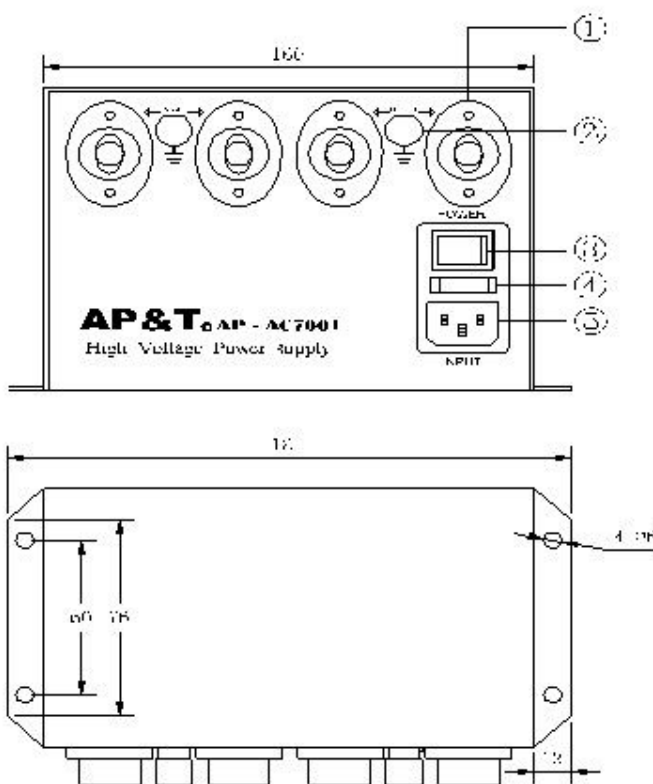

## Specification

Model	AP-AC7001
Input voltage	AC 220V/50Hz or 110V/60Hz (customize)
Output voltage	AC3500V—AC7000V (customize)
Power	25W—28W(customize)
Working temperature	0-50°C
Working humidity	≤ 85%
Net weight	2760g
Gross weight	3280g(including packing box, power cord)
Dimension	184x100x117(L*W*H)

## Working Ways(AC)

## Dimension

- ① HV output
- ② earth connection
- ③ power switch
- ④ fuse
- ⑤ power input

### Safety warning

- 1, Input power must be earthed reliable.
- 2, Do not use this equipment in the environment where the humidity is greater than 85%.
- 3, It is strictly prohibited to use this equipment in flammable and explosive environment.
- 4, Internal maintenance and repair must be carried out by professionals

### Positioning
