

## YDQ Series Gas testing transformer

### Product Description

---

This Series incorporates the most advanced SF6 gas application technic, with features of safety assurance, accident prevention, and inspection maintenance.

### Features

---

- Outstanding nonflammability.
- Safety, with good insulation effects.
- Light weight, small size, no oil pollution.
- Unaffected by climate, little corona, long service life.

- No maintenance.

## Specifications

- Rated Input Voltage: 200V, 400V
- Single Rated Output Voltage: 0~300kV
- Capacity: 1~300kVA
- Ratio Error:  $\leq \pm 1.0\%$
- Impedance Voltage:  $< 10\%$
- Surface Temperature:  $< 55^{\circ}\text{C}$

Models	Capacity kVA	Low voltage side		High voltage side		Ratio
		Voltage (V)	Current (A)	Voltage (kVA)	Current (mA)	
1.5/50	1.5	200	7.5	50	30	500
3/50	3	200	15	50	60	500
5/50	5	200	25	50	100	500
10/50	10	200	50	50	200	500
15/50	15	400	37.5	50	300	500
20/50	20	400	50	50	400	500
30/50	30	400	75	50	600	500
50/50	50	400	125	50	1000	500
10/100	10	200	50	100	100	1000
15/100	15	400	37.5	100	150	1000
20/100	20	400	50	100	200	1000
30/100	30	400	75	100	300	1000
50/100	50	400	125	100	500	1000
