

PCB Depanelizer (CWVC-3S)

Feature:

- Guide can be adjusted vertically to suit different PCB board.
- Clearance between the circular blades can be precisely adjusted with the knob
- Upper and lower circular blades can be reused after regrinding.
- Shape and sizes of the circular blades can be made according to customer's specifications .
- Add 1.5m or 2.4 m Stainless steel platform
- Three pairs of precision cutting blades can ensure the board does not bend, no deformation.

Specification:

Machine Size: 40*40*34 cm

The Longest Minimize No limited

Minimize Speed: 0-400mm/s

Minimize thickness: 0.5-3.0mm

Machine Weight: 60Kg

power supply: 220V/110V

Platform size : 220*37 cm (can be customized)
