

DLDW-ETBE24D730 Electrical Technology Know-how Training Set

Product Description

- Dimension : 1600mm×1370mm×1680mm
- Two-side four work station for four students
- Power box:multi-way three-phase, five-wire power, multi single-phase power
- Input power: three-phase, five-wire, AC380V, 50Hz/60Hz

- Power box with overcurrent, undervoltage, short circuit, leakage function protection device.
- Equipped with four stainless nets porifile plate, nets porifile plate dimension:640*730mm,nets orifice plate can be free to take, easy to train.
- Blue industry aluminum profile column frame, can disassembly and assembly by oneself, and easy to transport.
- Optional
 - Teaching resources
 - Simulation software
 - Electric drag components
 - Lighting components
