

DLWD-ETBE12D730M Electrical Technology Know-how Training Set

Product Description

- Technical Parameter
 - Total dimension: 1600×800×1850mm
 - Size of patch board: 640×730mm (Whole plate folding, stainless steel materials)
 - Input power: Three-phase, five-wire AC 380V±10%
50Hz/60Hz

- Output power: AC 380V safety terminal output, output power indicator AC 220V safety socket output, rocker switch control DC1.25-30V±10% safety terminal output(Including voltage, ammeter indication function).
- Instrumentation Measurement: Three-phase voltage measurement, three-phase current measurement, single-phase current measurement, three-phase power measurement, single-phase power measurement, power factor measurement, frequency measurement, single-phase load electricity consumption measurement.
- Capacity: < 1.5KVA
- Optional
 - Teaching resources
 - Simulation software
 - Electric drag components
 - Lighting components
