

MOA-30 MOA Tester

Application

MOA-30 is specially testing poor contact between valves of gapless MOA with 10kV and below. It also measure DC reference voltage (U_{1mA}) of MOA and leak current under $0.75 U_{1mA}$.

Technical Parameters

Measurement range: Voltage 0-30kV, Current 0-1000 μ A.

Measurement accuracy: Voltage 1%.

Ambient temperature: 0-40°C

Relative humidity: $\leq 85\%$ (at 25°C)

Altitude: <1000M

Power supply: 220V $\pm 10\%$

Frequency: 50 ± 1 Hz
