

DLDZ-ETTE24D Electronic Skills and PCB Production Process, Training Device

■ Overview

- The system provides workbench for electronic assembling assessment training, provide effective AC output power.
- The workbench is divided into three operation area: test and maintenance, assemble and welding, PCB processing.
- The workbench is equipped with PCB kits, cutting machine, plate setter, corrosion chamber, bench drill and copper clad.

■ Technical Parameter

- Input power: single-phase, three-wire AC 220V \pm 10% 50Hz/60Hz

- Output power: AC 220V safety socket output
- Capacity: <1.5KVA
- Total dimension: 3468×800×1764mm
