

DLQD-DP401 Double-sided Electro-pneumatic Training System

■ Technical Parameter

- Power unit - air compressor (Basic configuration minicomputers)
- Power source: AC 220V±10% 50Hz/60Hz
- Motor power: 480W
- Nominal volume: 6L

Rated output pressure: 0.85MPa

- Noise grade: 66dB
- Workbench

Workbench size:1400 X 860 X 1800mm

Aluminum panel size: 1325 (L) X 755 (W)

■ Optional

- Teaching resources
- Pneumatic simulation software
- Valve terminal
- Step Controller
- Lead frame
- Computer table
- DLQD-CY1 Electro pneumatic machining, stamping training object
- DLQD-JXS1 Electric pneumatic manipulator training object
