Ultrasonic Metal Welding Machine For Ni Tab And Copper Foil Welding

1 TOB-VS-40A Ultrasonic Spot Welding

Machine is an ultrasonic metal welder designed for welding Li ion battery anode electrode sheets copper foil and Ni tab onto current collectors to prepare Li-Ion pouch cells and cylinder cell in R&D laboratories and production line.

2 TOB-VS-40A Ultrasonic welding machine

is with Automatic frequency tracking function, you don't need to setting frequency always, simple operation.

- Item No.:TOB-VS-40A
- Order(Moq):1set
- Payment:L/C,T/T,Western Union, Paypal
- Product Origin:China
- Shipping Port:XIAMEN
- Lead Time:7days

Product Detail

Ultrasonic Metal Welding Machine For Cylindrical Battery 18650 and Pouch Cell Anode Ni Tab And Single Copper Foil Welding

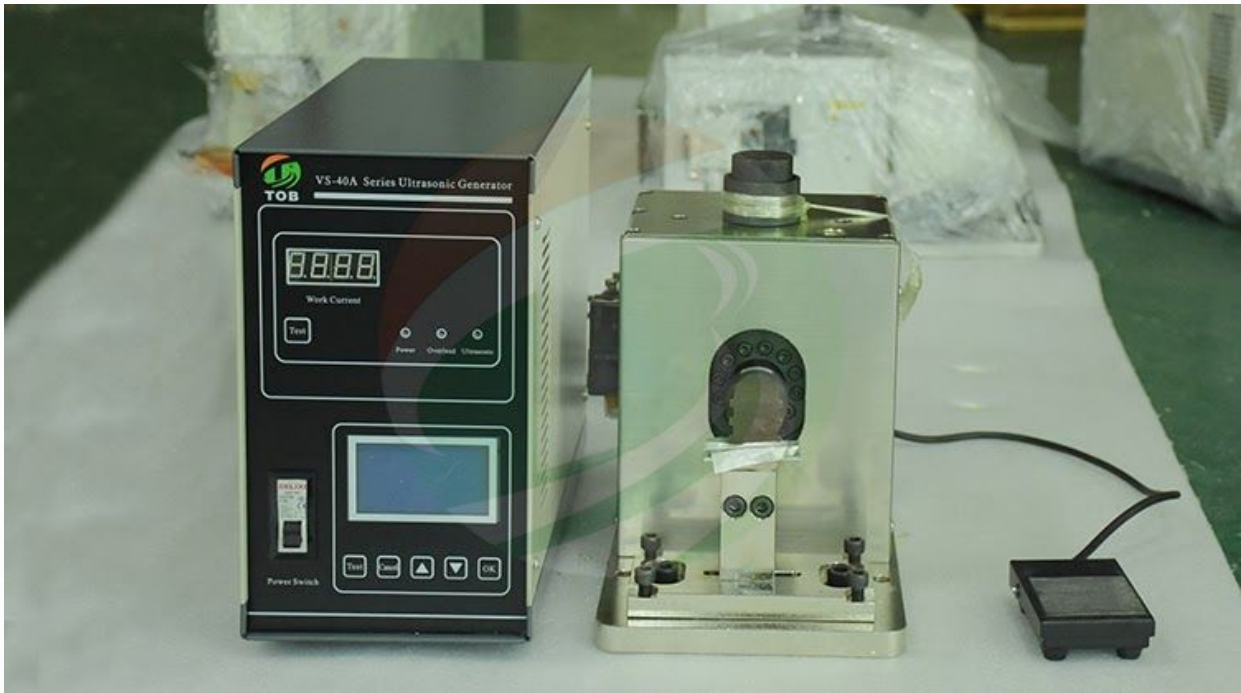

SPECIFICATIONS

1 TOB-VS-40A Ultrasonic Spot Welding Machine is an ultrasonic metal welder designed for welding Li ion battery anode electrode sheets copper foil and Ni tab onto current collectors to prepare Li-Ion pouch cells and cylinder cell in R&D laboratories and production line.

2 TOB-VS-40A Ultrasonic welding machine is with Automatic frequency tracking function, you don't need to setting frequency always, simple operation.

Model	TOB-VS-40A
Source voltage	AC220V, 50HZ, can be customized
Power	1200W
Warranty	One Year limited warranty with lifetime support
Type	Ultrasonic spot welding machine
Frequency	40KHZ
Welding time	0.05-9.99s
Air supply	0.2-0.8MPa
Welding effect	Single layer of copper foil and Nickel strip or Nickel-Cu strip welding , belt melt, welding firmly
Welding ability	1 Materials : Battery anode electrode. (single layer copper foil and single piece Nickel/Ni-Cu strip) 2 Copper foil thickness : 8-15um 3 Nickel/Ni-Cu strip thickness : 0.06-0.12mm 4 Welding mode : according to your requirements 5 Welding area : can be customized
Dimension (L*W*H)	Power box : 400*170*300mm Welding machine : 300*200*270mm

PRODUCT DISPLAY

18650 battery welding head
