

DLFA-MCT Servo Motor Motion Control Training Set

■ Parameter

- Power: Main circuit: AC 220V, return circuit: DC 24V
- Air source: 0.4Mpa~0.55Mpa
- Tem: perature-10~40°C
- Dimension: 1200*750*2750mm

■ Training content:

- PLC Basic instruction contact.
- Combination control
- Assembling and disassemble of electrical and mechanical
- PLC programming
- Double-shaft servo motor system
- Drive shaft type

- Pneumatic gripper
- Basic and advanced training
- For practical training the openness of the structure
- Position control
