Manual Inserting Winding Machine For Lithium Battery

TOB-JRJ-02 Manual Winding Machine is used for winding battery anode/cathode electrodes with separator together in the research of Li-ion battery cells. It can be used for both cylinder battery or prismatic battery by changing winding blade.

- Item No.:TOB-JRJ-02
- Order(Moq):1set
- Payment:L/C,T/T,Western Union, Paypal
- Product Origin:China
- Shipping Port:XIAMEN
- Lead Time:7days

Product Detail

Manual Inserting Winding Machine For Lithium Battery With Operating Table

SPECIFICATIONS

1 TOB-JRJ-02 Manual Winding Machine is used for winding battery anode/cathode electrodes with separator together in the research of Li-ion battery cells. It can be used for both cylinder battery or prismatic battery by changing winding blade.

2 This manual winding machine is supplied with stainless steel table for immediately use.

Model	Manual Winding Machine TOB-JRJ-02
Working Voltage	AC110V/220V, 50/60HZ
Power	25W
Warranty	·One Year limited warranty with lifetime support
Winding Speed	12 - 140 RPM Adjustable
Winding blade	The winding width depends on the width of the winding blade Customized square winding blade according to battery model
Winding Mode	Switchable between clockwise and counterclockwise
Output	70-100EA/h, according to battery size and maunal
Product Dimensions (L*W*H)	1200*600*1000mm
Net weight	About 30kg
Application Notes	This machine can be used for prismatic battery with square winding shaft, and you can also choose the round winding shaft for cylinder cell core winding, We will supply with the suitable winding accessories according to your battery model
