

Elcometer 3505 Cube Film Applicators

These two cube film applicators, manufactured from hardened stainless steel, accurately apply film stripes in either a single or up to a block of five film stripes, each 12mm (0.5" wide).

Ideal for preparing samples for use with the Elcometer 5300 Linear Drying Time Recorder (see page 18-2) or for simultaneously comparing formulations. Each cube film applicator is supplied with a set of nineteen thickness gauges from 30 - 1000µm (1 - 40mils) to adjust the film thickness.

STANDARDS:

ASTM D 823-E, ASTM D 1640-03

Technical Specification

C

Part Number		Model	Film Thickness		Film Width ⁺		Number of Stripes
Metric	Imperial		µm	mils	mm	inches	
K0003505M001	-	Elcometer 3505/1	30 - 1000	1 - 40	12	0.50	1
K0003505M202	-	Elcometer 3505/2	30 - 1000	1 - 40	12	0.50	5

⁺ Elcometer 3505/1 total width: 26mm (1.0"); Elcometer 3505/2 total width: 146mm (5.7")
