

Supercapacitor Case Channeling Machine

The device is suitable for the channeling operation of cylindrical supercapacitor case.

- Item No.:TOB-GC60-L
- Order(Moq):1set
- Payment:L/C,T/T,Western Union, Paypal
- Product Origin:China
- Shipping Port:XIAMEN
- Lead Time:7days

Product Detail

Supercapacitor case channeling machine

SPECIFICATIONS

Functional overview

The device is suitable for the channeling operation of cylindrical supercapacitor case.

Functional characteristics

- 1.Receiving or discharging product adopts ring guide rail, workstation conveying materials adopts servo ball screw.
- 2.Channeling and clamping device adopts cam mechanism, with stable Channeling depth and height, and high controllable precision.
- 3.Channeling depth and height are adjustable, and the adjusted numerical value can be observed on human-computer interface duly.
- 4.Equipped with the imported two-dimension bar code scanner. Data can be stored and derived, for the convenience of quality control and traceability on product.
- 5.Equipped with security guard shield and safety light grid, with safe and reliable device operation.
- 6.Adopt the imported PLC. Touch screen displays operation, conveniently and quickly.
- 7.Case adopts dust-proof glass cover. The device is top-grade and dust-proof.

Technical parameters

Channeling Accuracy (W)	±0.05mm
Channeling Accuracy (L)	±0.05mm
Channeling Adjustment range	0~100mm
Mould adjusting precision	≤0.01mm
Power source	AC220W50Hz
Power	2.5kw
Air source	0.4~0.7MPa 5L/min
Overall dimensions (L*W* H)	1500 x 1000 x1650mm
Weight	750kg
