

Laboratory Deionized Water Machine 10L/H

TOB-DBW-SYS-10L/H Deionized Water

Machine is a lab water purifier widely used for Electronic industry, pharmaceutical industry, chemical industry etc. Laboratory Ultrapure water preparation.

- Item No.:TOB-DBW-SYS-10
- Order(Moq):1set
- Payment:L/C,T/T,Western Union, Paypal
- Product Origin:China
- Shipping Port:XIAMEN
- Lead Time:7days

Product Detail

10L/H Laboratory Deionized Water Machine For Lithium Battery Mixing Water Preparation

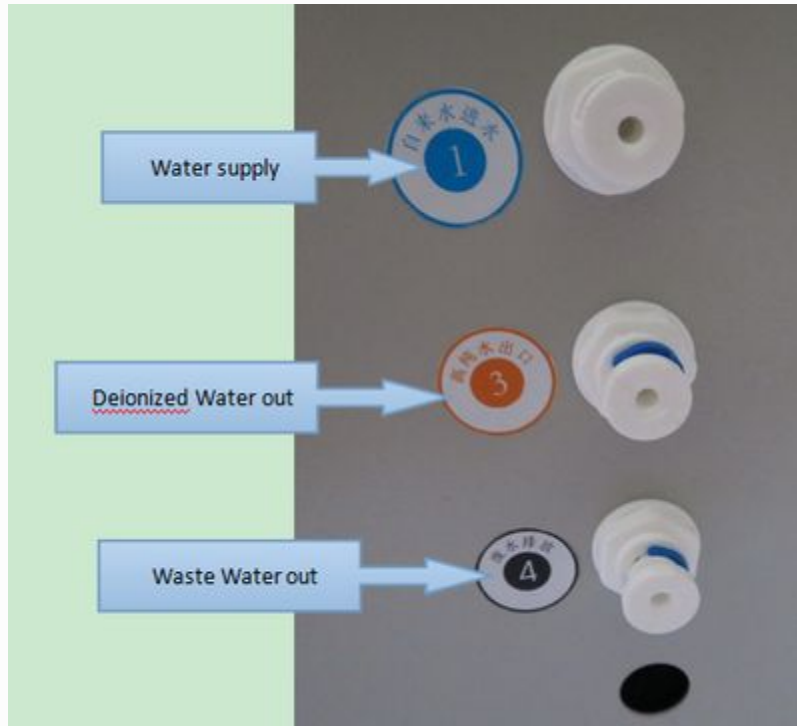

SPECIFICATIONS

- 1 TOB-DBW-SYS-10L/H Deionized Water Machine is a lab water purifier widely used for Electronic industry, pharmaceutical industry, chemical industry etc. Laboratory Ultrapure water preparation.
- 2 This Deionized Water Machine adopts reverse osmosis membrane (RO) membrane as the core, supplemented by multi-stage pretreatment of membrane type pure water machine, using the current international advanced reverse osmosis technology and Mixed bed desalination process to prepare ultrapure water.
- 3 For Lithium battery lab research, the Deionized Water is used for battery cathode materials mixing with water to improve lithium battery performance.
- 4 This Deionized Water machine can also be used for lead-acid battery and solar cell producing and research.

Model	Laboratory Deionized Water Machine TOB-DBW-SYS-10
Source voltage	AC 220V/110V, 50HZ
Power	30W
Warranty	One year limited warranty and lifetime support
Making water quantity	10L/H, Customized
Output water quality	Ratio of desalinization : >99.99%
	Conductivity : < 0.01-0.056us.cm
	Electrical resistivity : 10-18MΩ.cm
	Sio2≤0.01
Structure	Status online display, Microcomputer automatic control system of water process, Displays Power supply, water, flushing, filled with water, lack of water, with Low voltage protection, high voltage protection. Water shortage, water full, the system automatically stop Automatic and simple operation.
Dimension(L*W*H)	450*350*650mm
Weight	40kg

PRODUCT DISPLAY

Simple connection for deionized water machine

Accessories for Deionized water machine

PACKAGE AND SHIPPING

- 1 Standard exported package : Internal anticollision protection, external export wooden box package
- 2 Shipping by express, by air, by sea according to customer's requirements to suggest the most suitable shipping mode
- 3 Responsible for the damage during shipping process, change the damage part for free
- 4 Supply with suitable voltage input and power plug according to customer's country requirements.
- 5 Supply with CO, ECO, FORM A, FORM E and any other original certificate for import custom clearance and tax relief.

SERVICES

- 1 We supply machines with battery technology support.
- 2 We can also supply a full set of materials for lithium battery including polymer battery, cylinder battery, mobile phone battery, EV battery.
- 3 We can also supply a full set of lithium battery equipment for lab research, pilot scale research and production line.
- 4 We can also supply a full set of battery technology for battery design, research and producing.
