## DPR280 Digital Pressure Datalogger

This digital pressure gauge is equipped with a large-size LCD display, which has various functions such as clearing, backlighting, switching, unit switching, low voltage alarm, etc. It is easy to operate and easy to install.

The product adopts 304 stainless steel shell and connector, which has good shock resistance and can measure gas, liquid, oil and other non-corrosive medium for stainless

steel.
This intelligent digital pressure gauge is suitable for pressure measurement in portable pressure measurement, equipment matching, calibration equipment, etc.

## Technical Characteristics

¿ Outer diameter 80 mm , 304 stainless steel dial and connector
B battery power supply, can last for 12 months
$\star$ Timed collection
$\approx$ USB output, support data export
$\approx$ Dedicated data communication line
$\approx$ can store up to 10,000 data
$\star$ With pressure scale bar indicating the current pressure percentage
\& One-button clear error
It can measure water, oil, gas and other media that are non-corrosive to stainless steel.
