DZQ-260T Vacuum packaging machine

Publish time 2018-07-03 11:39

Product description:

The DZQ series shell is made of stainless steel and can be pre programmed into the technical parameters of the package in advance. It only needs to press the vacuum chamber cover when working, that is, the whole process of vacuum packing is completed according to the automatic program.

Scope of application

In particular, it is suitable for vacuum packaging of seafood, salted goods, fruits, tea and precision parts in food, so as to prevent oxidation deterioration and extend shelf life.

Meat products, foodstuffs, seafood, agricultural products, vegetables, bean products, electronic products and other hardware products.

technical parameter:

Model	DZQ-260T
Power Supply	1φ220V 50/60Hz
Seal size / number	L260×W8mm/1
Maximum packing size	L260×W260×H55mm
Shape size	430*320*350mm
power	0.8KW
Net weight	38kg
