SCD-101B Low platform automatic packing machine

Electrical configuration: LG "PLC" control, France "TE", Japan "OMRON", "ZIK" electrical appliances, etc.
 It is suitable for large and heavy packing.

technical parameter :

Product model	SCD-101B
Long men frame size	W800*H600mm
Table Height	450mm (Customizable at the height of the user's needs)
Binding method	Parallel 1~ multichannel; mode of movement, manual, continuous play, ball switch, foot switch.
Tighten force	0-60kg (Adjustable)
Machine size	L1900×W620×H1850mm
power	3φ220V/380V 0.75kw
Packing speed	≤2.5 Second / Channel
Packing belt specification	thick (0.55~1.2) mm*wide (9~15) mm
Net weight	320kg
