SCD-201 Strapping machine

SCD-201 Product Description:

The machine is an automatic Baling Equipment. It only needs to move the package to the work table. It can touch the table automatic switch and automatically pack it. According to the requirements of the packaging, the number of packing bar can be selected. It can also be designed as power type or side type, according to the production line of the user, to meet the requirements of different users. The serial products of the automatic packing machine produced by Shuang Cheng company all achieve the continuous and reliable binding, the plastic belt fasten the surface of the package, the joint firm, the electrical safety of the machine, the noise of the working noise and so on.

Scope of application:

Widely used in household appliances, light industry, food, general merchandise, medicine, printing, post and telecommunications, chemical industry, textile and other industries.

It can be operated on a single machine and can be used in conjunction with the assembly line.

technical parameter:

Product model	SCD-201
size	L1400mm*W620*H1435mm
Packing size	L1500mm*W700*H1600mm
High work table	750mm
Load-bearing capacity	80kg
Net weight	150kg
bandwidth	9mm-15mm
Tying speed	≤2.5Second / Channel
Packing belt specification	Minimum packing size: W80mm*H60mm, maximum in frame specification.
Tying tightness	0-50kg
Power	400W, 3A
Power Supply	1P, 220V, 50-60Hz
T unable options	Frame specification, bandwidth
