SCC-2000B Wrapping machine (pre-tensioning)

SCC-2000B automatic wrapping machine Product Description:

Using PLC programmable control

The top and bottom winding layers, times and top time can be set directly on the panel.

Touch screen is easy to operate, and the whole packaging process can be completed by pressing the button automatically.

The photoelectric switch can automatically detect the height of the item

Digital electronic control loop has high stability, long life and low failure rate.

The membrane frame is a pure cast aluminum film frame and it is light and stable

Wear wear-resistant rubber wheel, long service life

The film system is driven by a moving mechanism.

Mechanical compliance with CE standard

technical parameter

Machine shape size	2600mm×1500mm×2400mm
L mm	2400mm(可选2600/28003000/指定)
Turntable diameter	Φ1500mm （可选1650mm/1800/2000mm等）
Film width	20"
Gross weight / net weight	470kg/400kg
colour	Blue, dark blue, gray
Film type	280mm≤W≤500mm
Maximum packing height	2000mm
Maximum packing area	1100×1100mm
Maximum packing weight	1500kg
rotary speed	0-13转/分
Turntable load-bearing	2吨
Rise and fall of adhesive film	0-3m/min
