

# AT-RT-01 Refractometer for Anti-freeze & Battery Fluid testing

RT-01 Refractometer for Anti-freeze & Battery Fluid testing  
Refractometer for Anti-freeze & Battery Fluid testing  
Range: Ethylene glycol 1.15-1.30  
specific gravity Minimum Scale  
Division: 5°C Automatic Temperature  
Compensation range: 10 to 30°C

RT-01 Refractometer for Anti-freeze & Battery Fluid testing

- Range: Ethylene glycol 1.15-1.30 specific gravity
- Minimum Scale Division: 5°C
- Automatic Temperature
- Compensation range: 10 to 30°C

**RT-01 Refractometer for Anti-freeze & Battery Fluid testing**

Refractometer for Anti-freeze & Battery Fluid testing

Range: Ethylene glycol 1.15-1.30 specific gravity

Minimum Scale Division: 5°C

Automatic Temperature

Compensation range: 10 to 30°C
