

## CF-09

### Automotive Current Short Tester

The automotive current short tester can test vehicle's short-circuit current range from 10 to 30 amp with

CF-01/CF-01S adapters. LED indicate the circuit range. It is convenient to operate.

Determine the circuit circumstance(short or open)

LED indication

Over-load audible warning

Manual and automatic test function

Measurement current range: 10A, 15A, 20A, 25A, 30A.

Power charge by vehicle battery

<b>Features</b>
Determine the circuit circumstance(short or open)
LED indication
Over-load audible warning
Manual and automatic test function
Measurement current range:10A,15A,20A, 25A, 30A.
Power charge by vehicle battery

**Size(HxWxD):** 200mm x 78mm x 44mm

**Weight:**206g

**Applications**

**CE** **Automotive Current Short Tester**
