

Decade Capacitance Box

ZMDCB

Make	ZEAL
Model	ZMDCB
Specifications	Decades of 1nF, 10nF, 100nF, 1μF, 10μF
Total capacitance Range	111.111 μF
Accuracy	1% at 1 kHz

- Decade Capacitance Box is made of styroflex, polystyrene and Tantalum Electrolytic capacitors. Decade switches used have low contact resistance & thermal emf.
- Decades are fitted in a metallic box with powder coating & screen printing. Box has 4 wire output with guard terminal.
