

HAAS-1200 ACCURATE ARRAY SPECTRORADIOMETER (Advanced industry grade)

1. HAAS-1200 is an advanced industrial product based on the technology of HAAS-2000/3000 high accuracy array spectroradiometer, and it belongs to the family of high accuracy.
2. High speed, high reliability, and high performance.

Parameter

- 1) Wavelength range: 350nm-1000nm;
- 2) Wavelength accuracy: $\pm 0.3\text{nm}$;
- 3) Integration time: 10ms-100s;
- 4) Luminous flux range: 0.01 lm-200,000 lm(Cooperated with appropriate integrating sphere);
- 5) Photometry Accuracy: Class 1

Application
