

HP-A Portable Type of Precision Balances

HP series lead the economic balance. The delicacy construction, innovative design, advanced technology, stable operation and easy to maintain make HP series the most cost-effective series.

Main Specification					
Item No.	Weighing Range(g)	Readability(g)	Repeatability(g)	Linearity(g)	Pan Size (mm)
HP-A200	200	0.01	±0.01	±0.02	Φ128
HP-A300	300				
HP-A500	500				
HP-A600	600				
HP-A1000	1000				
HP-A2000	2000		±0.02	±0.03	
Work Temp: 5°C – 35°C, 80%RH					

Housing (L×W×H) : 260×175×60mm

Main Characteristic

Sensor Structure	Loadcell Sensor
Calibration Way	External CAL
Anti-vibration Level	N/A
Housing	High-strength ABS shell
Display	LCD Display
Stable time	3s Adjustable
Unit	g, ct, oz, ozl, dwt, lb, tIT, tIs, kg, 9units selectable
Interface	N/A
Weighing Mode Lock	N/A
Underhook	Optional
Power	AC adaptor, Optional with inner rechargeable battery

Application Mode

Percentage Weighing	Counting Function
---------------------	-------------------
