

PF9901 Digital Power Meter (20A)

PF9901 is a powerful and small digital power meter, besides the function of basic electrical parameters measurement, there are functions like upper and lower limits settings function for current and power, alarm function, and hold function. It is suitable for massive purchase of enterprises.

Items	PF9901
Three windows display	V, A, W, PF, Hz
Input current	5mA ~ 20A / 40A
Range switching	Automatic / Manual (current)
Power factor	-1.000 ~ 1.000
Frequency range	AC: 45Hz ~ 65Hz, bandwidth: 5kHz
Accuracy	$\pm (0.4\% \text{ of reading} + 0.1\% \text{ of range} + 1 \text{ digit})$
Upper and lower limits judgment function	Set current and power upper and lower limits, and alarm function
Hold function	Use for data fluctuations to read conveniently
