

## NJ210 Digital Torque Meter

NJ210 displays the torsion value and maximum value and data holding on..Friendly interface and intelligent operation.The upper limit of torque can be set and exceeded limitation alarming

Items	Specification
Measurement range	0N·m~10 N·m,minimum reading:0.001N·m
Accuracy	$\pm(0.5\% \text{ Reading} + 5 \text{ digit})$
Lamp head adapter	B22, E14, E26/E27, E40、 G5/G13
Communication	RS-232-C series port

It is an ideal solution to test the torque of different lamp holders such as energy-saving lamp, incandescent lamp, high-pressure mercury lamp and sodium lamp.
