

Single Yarn Strength Tester HTY-005

Detailed Description

This tester is suitable for the analysis of the tensile strength of all types of yarn.

Using special software can be connected to the PC, will test data automatic statistics, the data can be save or by the printer to print output.

Specifications:

Testing range: 0~10000 N \pm 1% (can be customized)

Strength speed: 20~1200mm

Strength speed accuracy: \pm 2%

Dimension: 600*350*1100mm (L*W*H)

Standard: ISO-2062 GB/T3916

Accessories: Software, power line 1pcs

Optional purchase consumables: Computer
