

SOLDER PASTE SOFTENER SPS-10

Usage

- NOW RENEWED! Malcom's Solder Paste Softener
- SPECIAL FEATURES
- The above specifications are subject to change without notice.
 - Stir Solder Paste to finish closely by hand stirring with Malcom's Unique Pseudo Planetary Motion combined the revolution and the rotation.
 - The centrifugal force causes the solder paste repeatedly fold over itself thereby softening the paste.
 - Auto Balance Function corresponds to 500g & 1kg containers.

Product specification

Item	Specification
Model Name	SPS-10
Mixing Method	Pseudo-Planetary Motion Revolution : Centrifugal stress makes solder paste fluid Deceleration Vertically
Centrifugal Stress	Max. 50kPa (0.5kgf/cm ²)
Built-in Timer	10sec. ~ 60 minutes In the unit of 10sec. Setting from the panel
Memory Function	Max. 9 setting condtions
Paste Container Sizes	500g(100cc) or 1Kg(300cc)
Balance	Auto-Balancing
Safety Interlocks	(1) Door lock : Locked during operation (2) Unbalanced Motion Detector
Power	30W
Power Supply	AC100, 115, 220 & 240V \pm 10% 50/60Hz to be specified when ordering
Battery Power	4 AA Batteries for Auto-Balancer
Weight	Approx. 23kg
