PRODUCT VIDEO

### 1. Application:

Model P-2T Metallographic specimen polishing machine is a kind of double-disc table type polishing machine and can be operated by two persons at the same time. It is suitable for the polishing of the specimen which has been grinded. The specimen surface is very smooth after processing and can be used to observe and measure the metallographic structure of specimen under microscope.

### 2. Main specifications:

Model	P-2T
Diameter of polishing disc	200mm,
Polishing disc rotating speed	1400 rpm
Cooling method	water cooling
Motor	180W
Power supply	Single phase, 220V, 50Hz
Net weight	35 Kg
Dimension	700×410×320 mm
