

## Fiber Crimp Elasticity Tester GT-B15

### **Application:**

Fiber Crimp Elasticity Tester is used for Measuring the crimpness, percentage of crimp elasticity, crimp recovery and their statistics value of 1-22dtex fiber. It has display & print function.

### **Key Specifications**

Model	GT-B15	
Load range	0-25.00Mn	
Initial length	20mm	
Down clamp distance of run	≥30mm	
Minimum scale of	0.01mm	
Reading error of displacement	≤0.05mm	
Test timing	0.5, 1, 2min	
Load range (mN)	Division value (mN)	Estimated reading (mN)
0～5.00	0.01	0.005
0～10.00	0.02	0.01
0～25.00	0.05	0.02
