

## **Durawash Garment & Printed Durability Tester GT-D12**

### **Application:**

The Durawash simulates the conditions necessary to meet leading chain stores standard garment and fabric durability tests. The process control systems provide excellent accuracy and repeatability.

The physical performance of the Durawash is compatible with that of the "Hoovermatic" Twin Tub and complies with the Marks and Spencer Fabric Durability (C15) and Print Durability (P5) methods of test. Agitator speed is 560

rpm +/-2%.

**Standards:**

Marks & Spencer P5, C15

### Key Specifications

Model	GT-D12
Agitator Speed	560rpm $\pm$ 2%
Washer Liquid	40 Litres
Sample Size	500×500mm
Max. Testing Temperature	60 $\pm$ 2degree (adjustment)
Dimensions	70×67×90cm (L×W×H)
Weight	60kg
