

Particulate Filtration Efficiency Tester GT-RA09D-2

Application:

Particle Filtration Efficiency Tester pfe testing machine is suitable for rapid, accurate and stable detection of the filtration efficiency of various medical and daily protective masks, respirators, etc.

Key Specification

Model	GT-RA09D-2
Aerosol	Salt
Efficiency detection	Particle counter (0.3-10µm)
Control model	PLC Touch screen control
Aerosol Channel	One
Test flow range	15L / min ~ 100L / min, accuracy 2%
The air flow cross-sectional area	100cm ²
Resistance test range	0 ~ 1000Pa, accuracy can reach 0.1Pa
Filtration efficiency test range	0 ~ 99.999%, resolution 0.001%
Test time	Separate resistance test: 5s Simultaneous efficiency and resistance test: 70s
Power supply	1phase 220V 50Hz

Particle Filtration Efficiency Test PFE Tester Accessory

Standard Accessory	1set	Salt aerosol generator
	1set	Particle counter (0.3-10µm)
	1set	100cm ² fixture
