

Cat.No.7650-00

Mini Anemometer Model PC-51D

Model

PC-51D

A compact, lightweight vane type anemometer. Convenient to check the air velocity and air temperature in the field such as construction sites.

Specifications

Measuring Range	Wind speed: 1.1 to 20.0m/s Temperature: -15.0 to 50.0°C
Measuring Accuracy	Wind speed: $\pm 0.9\text{m/s}$ at 1.1 to 10.0m/s; $\pm 2.0\text{m/s}$ at over 10.1m/s: Temperature: $\pm 1^\circ\text{C}$
Sensors	Wind speed: vane (propeller) Temperature: Thermistor
Power requirement	"CR2032" button cell battery x 1
Dimensions	(W)144 x (H)47 x (D)26 mm (collapsed size)
Weight	approx. 95 g
